**PREFACE**

This body of work has taken 38 years of record searching in courthouses, interviews with living relatives, cemeteries, microfilm reading of census records, deeds and most important of all...libraries from the local town library to the National Archives, resources gathered from all over Missouri and Tennessee.

I have had help from many researchers sharing their research over the years with the intent that one-day, I would be able to compile and share what was found with others. It is with great pleasure I am able to share this accumulative descendant research in this comprehensive volume of work.

First and foremost, please make copies of this file for future preservation.

**LAYOUT**

There are several sections in this book.

[1] 26-page descendant chart of Leroy Clark Boring's family comprising of 7 generations.

[2] Most descendants have basic information some with Cradle to Grave Profiles (C2G) followed by notes comprised of very important source documentation and research recommendations.

[4] Most descendants have spousal information including children and their spouses. If further information is wanted concerning allied families, please contact the author.

[5] Names highlighted in **blue** are the author's direct line ancestors.

[6] The end of the book has the author's pedigree showing his relationship to the common ancestor. Also, there is a short biography of the author explaining his interest and qualifications in family history research.

I hope you will share this book with others in your family and it will become a family treasure.

Any questions you may have concerning information in this book can be asked of the author either at his home address: Floyd Pratt, 15434 East Ford Circle Apt A-1, Aurora, Colorado 80017 or by phone 941.209.1701 or by email [floydpratt59@gmail.com](mailto:floydpratt59@gmail.com).

It is and always has been my desire to share what I have found with others so they may use our research as a springboard to launch their family histories. Only through knowing our ancestors...can we know ourselves.

## First Generation

Date from the 1820 census states he was born

Date from the 1830 census states he was born 1791-1800.

Date from the headstone states he was born

Date from the obituary states he was born

### **Research Note**

Even though Goodspeed's article states Leroy was born in Tennessee, his children state he was born in North Carolina in the 1880 census records. He may have travelled through Tennessee on his way to Missouri but North Carolina appears to be his birth state.

### **1800 Federal Census age 1-9**

### **1810 Federal Census age 10-19**

### **1815-1820 Possibly Marriage**

### **1816-1820 Possible childbirth of son; \_\_\_\_\_ Boring**

### **Research Note**

Leroy was aged 27-36 when he married Mary "Polly" E. (HULSEY) in 1827, indicating he may have previously married. This assumption has support due to the 1830 census showing a 10 to 14 year old boy living with the family. If this boy is Leroy's son from a previous marriage then this boy was born circa 1816-1820. Leroy would have been around 15-25 at the time of his birth.

## **Research Note**

Since Leroy and Mary were married in 1827 then the 10-14 year old boy in the 1830 census either had to be a hired hand, a neighbor's boy, or a son from a previous marriage of Leroy Clark Boring.

*Robert A. Boring, farmer, is the son of Leroy C. and Mary (Hulsey) Boring, natives of Tennessee and Georgia, respectively. When young they came to Missouri, were married in Franklin County, and here the father followed agricultural pursuits for some time. He held the position of justice of the peace, and died in the full strength of manhood. The mother afterward married John Peters. She still lives and is seventy-eight years of age. Three children were born to her first marriage, and three to her second. Robert A. was the eldest of the children born to the first marriage, his birth occurring in 1830. His early education was wholly neglected, but upon reaching manhood he acquired a practical education by his own efforts. His early life was one of hardship, and when fifteen years old he began working for himself at 25 cents a day. Until 1853 he worked at whatever he could get to do, and in that year married Miss Martha J. Callaway, a native of Virginia, who bore him six children, three now living: Henry C., John T., and William A. Both Mr. Boring and wife are members of the Methodist Episcopal Church South. In 1864 Mr. Boring enlisted in Company H of the Fortieth Missouri Infantry, United States army, and served until August of the following year. He was in the battles of Nashville and Spanish Fort. While marching through Nashville he fell headlong into a pit and injured himself for life. He was discharged at St. Louis and is now drawing a pension. For a number of years after marriage Mr. Boring hauled iron at Pilot Knob, but for the last twenty years he has been engaged in farming, and has 121 acres. He is a Republican in politics, and a member of the G.*

## **Research note concerning potential parents**

In order to discover more concerning Leroy Clark Boring, a road trip is in order. Checking all the resources of the Franklin County, Missouri Courthouse at Union, Missouri is where I would begin.

[1] Checking all deed books for property transactions, including purchases, sales and witness recordings to establish his activity dates and maybe one of those deeds might reveal his origin in Tennessee or North Carolina.

[2] Checking the court records might reveal legal documents and sometimes they reveal previous residency locations and family members in other states, as well as any legal transactions in Franklin County.

[3] The probate records might show more information concerning his death and burial location.

[4] Checking the local newspapers for death and other information pertaining to Leroy Boring in Franklin County might reveal some family information.

## **Potential Relatives**

Following up on the "other" Boring individuals such as Stephen in Madison County, Jacob in Jefferson County, and John in Jefferson County, for potential family connections might reveal a connection to Leroy.

Especially, Stephen who was age 40-49 in the 1840 census. Checking the probate records of Madison and Jefferson County might reveal a family connection in their wills...if they recorded one.

The middle name of Clark may have been Leroy's mother's maiden name.

# Leroy Clark Boring and Descendants

Since daughter; Sarah married Montgomery Patton on the 3rd March 1850 in Saint Francois County, Missouri and by the 26th of August 1850, they had moved to Madison County, Missouri would indicate a strong family connection in Madison County for either Montgomery or Sarah.

Sarah's brother; Robert had also moved to Madison County by the 1850 census with Sarah and Robert's mother; Mary "Polly" (**HULSEY**) Boring and her new husband John Jacob Peters III.

Therefore, I would apply steps 1-4 above also to Madison County, Missouri looking for all Boring documents and maybe a family connection, especially to Stephen Boring of the 1840 Madison County, Missouri census born 1790-1800 whom I believe is Leroy Boring's brother.

Finding more about Stephen Boring's parents; William & Ruth ( **DUFF**) Boren Borin Boring of Sumner County, Tennessee may confirm them as Leroy Boring's parents.

William and Ruth had a daughter named Sarah Ann ( **BORING**) and Leroy and Mary "Polly" named a daughter Sarah A. (**BORING**). William and Ruth also had a son; William W. Boren Jr. whom married in Sumner county.

I would check out William Boren Borin Boring of Twelve Mile Township, Madison County, Missouri in the 1830 census aged 60-70 born 1760-1770. Revolutionary war soldier, living 7 houses from Stephen Borin mentioned above. This William has strong connections to the Allen Duncan family a few doors down since his daughter Sarah Ann married Allen Duncan and William is living with his daughter in the 1850 census. William is also in the 1840 census.

I believe William and Ruth are the parents of Leroy and the more you investigate this family the better the pieces fit. Also, I believe you will discover the Clark name came from Ruth's side of the family.

Floyd Thomas Pratt F.H.C., M.A.G.I. 2014

Leroy married **Mary "Polly" E. Hulsey**, daughter of **Elijah "Eli" Elias Hulsey** and **Sarah Naomi Choate**, on 4 September 1827 in Franklin, Missouri, United States. Mary was born on 10 May 1812 in Milledgeville, Baldwin, Georgia, United States, died on 30 August 1890 in Meramec Township, Crawford, Missouri, United States at age 78, and was buried in August 1890 in Steelville Cemetery, Steelville, Meramec Township, Crawford, Missouri, United States.

Until 1853 he worked at whatever he could get to do, and in that year married Miss Martha J. Callaway, a native of Virginia, who bore him six children, three now living: Henry C., John T., and William A. Both Mr. Boring and wife are members of the Methodist Episcopal Church South. In 1864 Mr. Boring enlisted in Company H of the Fortieth Missouri Infantry, United States army, and served until August of the following year. He was in the battles of Nashville and Spanish Fort. While marching through Nashville he fell headlong into a pit and injured himself for life. He was discharged at St. Louis and is now drawing a pension. For a number of years after marriage Mr. Boring hauled iron at Pilot Knob, but for the last twenty years he has been engaged in farming, and has 121 acres. He is a Republican in politics, and a member of the G. A. R. He may be called a self-made man in every sense of the word, as he made his all by hard work and economy.*

## Peters, Rozier, Boring, and Hulsey Connections

by Floyd Thomas Pratt F.H.C., M.A.G.I. 2009

When one tries to locate the parents of a child, they begin by trying to get a birth certificate or death certificate or follow the census information backwards from the child's marriage date. This is the case with Martha Jane Peters who married Joseph Kimberlin on 10 December 1866 in Washington County, Missouri.

By finding the 1860 census which was 6 years earlier than the marriage date, one would feel they have a clear cut case for revealed parentage. Not necessarily so...as you will see.

In the 1870 and 1880 census records Martha is consistent with an 1842 birthyear in Missouri.

In the 1860 census she is living with John & Mary ( **HULSEY**) Peter near Ironton City Post Office, Arcadia Twp, Iron, Missouri, United States. She has siblings; William W. Peter age 14, Susan A. Peter age 12.

However, upon further investigation into the John & Mary ( **HULSEY**) Peters family we begin to find disturbing peculiarities. First, let's take a look at John & Mary ( **HULSEY**) Peters.

John or known as John Jacob Peters III was born in Giles County, Virginia around 1811 to John Jacob Peters II or Jr. and Sally ( **CLAY**) who were married in 1800. These are also the parents of my 3rd Great grandmother; Frances Jane ( **PETERS**) who married Rinard Kimberlin between 1825-1827 in Virginia.

I have found the Kimberlin(g) families, several of them moved from Virginia to Franklin, Washington, Stone and Greene counties of Missouri. They have extensive land records in each of those counties. John II or Jr. Peters moved after the death of his 1st wife, with his son John III from Giles County, Virginia to Meramec Twp, Washington County, Missouri in 1830. This is documented because John II is listed in both 1830 censuses.

John Peters III was single and living with his father when on 1 September 1836 he married widow Mary E. Boring in Washington County. In 1837, John III went to the land office in St. Louis and bought 40 acres in Richwoods Township, Washington County, Missouri. There we find him in the 1840 census where you would expect some children and here are the following;

1. A son 10-14 years of age fits the age of Robert A. Boring, son of Mary from her previous marriage to Leroy Clark Boring.
2. Besides his wife Mary, there is a daughter 5 to 9 years old. This girl could also be a Boring girl. Therefore, it appears this is not John's daughter.
3. There are also listed two daughters age 4 and under. If they had a daughter in 1837 and in 1838 or in 1839 then this could possibly be their children. Answers as to their identity should be in the 1850 census. This is where the peculiarities begin.

In the 1850 census we find that John III and Mary ( **HULSEY**) Peters family has moved after they sold their land on 21 September 1840 to Rinard Kimberlin. They show up at the 54th District, Madison County, Missouri with the following occupants: John Peters age 49; Mary Peters age 38, Robert A. Rozier age 21, Martha J. Rozier age 11, William W. Rozier

# Leroy Clark Boring and Descendants

age 5, Susan A. Rozier age 3.

Your first thought would be, where are the 2 daughters who should be 13, 12, 11 or 10 in the 1850 census? Good question. Your next thought would be who are these Rozier children? Good question. So, this histories mysteries begins to unfold.

After checking the 1850 census in detail, I observed the censustaker wrote the surname Rozier after each child, therefore eliminating the possibility that these young children were really Peters children but were recorded by error as Rozier children. In fact there are **no** Peters or Boring children listed in the 1850 census. This can only lead one to conclude...that John & Mary's children did not survive between 1840-1850 and they have Rozier orphans in their home.

Since the 1850 census is the first to record household members, the 1840 census would not tell us who these children really belonged to and who their parents are. So...to confuse the issue further, John and Mary have now moved near Ironton City Post Office, Arcadia Twp, Iron County, Missouri by the 1860 census.

What makes this census confusing is the fact that Martha J. age 17, William W. age 14, Susan A. age 12 are now listed in the home as Peters children with the Peters surname not Rozier. This new surname indicates one of two things. First, either John and Mary adopted the Rozier children and gave them the Peters name or the Rozier children were given the Peters name as a courtesy. In any case, note the following...

**[1]** Martha Jane Rozier-Peters married Joseph Kimberlin on 10 December 1866 using the Peters surname.

**[2]** Susan A. Rozier-Peters married Dabner Martin on 29 April 1869 using the Peters surname.

**[3]** William W. Rozier-Peters married Catharine Harrison on 3 July 1870 using the Peters surname.

...all in Washington County.

I can not find any record of Robert A. Rozier *after* the 1850 census. That's why I feel he was Robert A. Boring son of Leroy Clark & Mary E. (**HULSEY**) Boring.

Checking the death certificates turned up no leads. I feel checking the Washington County Adoption Records for 1850-1860 might yield some results, otherwise maybe the Potosi newspaper at that time might help.

Concerning the Rozier family, in 1777, Jean Ferdinand Rozier was born in France and came to Sainte Genevieve, Sainte Genevieve County, Missouri in 1810. He married Constance (**ROI**) and began having children...10 in all. The Rozier family were Catholic and I have an extensive collection of Catholic Church baptism, birth, marriage and burial records from Kaskaskia, Ste. Genevieve, Old Mines and Richwoods Catholic Churches ranging from 1766 to 1899, but not inclusive. I could not find any of the above children listed under baptism or birth records from 1829, which would have been around Robert A. Rozier's birth to 1848 which would have been Susan's birth.

This means that they were not christened in those churches. I think a clue would be down in the Catholic Churches in Jefferson or Madison County, Missouri since that is where John and Mary (**HULSEY**) Peters shows up with them in the 1850 census.

## Leroy Clark Boring and Descendants

---

Concerning the Mary Boring who married John Peters in 1836, I started researching the Boring family to discover her parents and by accident discovered the article in Goodspeeds about her son, Robert A. Boring. Wow, this article helped to clear her ancestry.

She was born in Georgia and came to Missouri at a young age. In 1827, she married Leroy Clark Boring in Franklin County, Missouri. They had 3 children. They are in the 1830 census and Mary "Polly" E. (**HULSEY**) Boring marries John Peters in 1836. This indicated the death of her first spouse between 1830 and 1836.

Goodspeed's article was written in 1888 and she was still living and the article said she also had 3 children by her second marriage. Either, they were adopted or they were actually John and her children. In any case, the three Rozier children will be listed in my tree with two sets of parents until this can be solved.

Mary "Polly" E. (**HULSEY**) Boring Peters is the daughter of Major Elijah "Eli" & Sarah Naomi (**CHOATE**) Hulse. Eli was born 1783 in South Carolina and Sarah was born 1788 in Georgia. Mary had a brother; William Henry Hulse Sr. who married Elizabeth "Betsy" (**HORINE**). Someone had done a great deal of research and found he was born in Milledgeville, Baldwin, Georgia, United States. Since he was born in 1811 and Mary was born in 1812 then that is probably her birth location. See...nothing to it!!! Floyd Thomas Pratt F.H.C., M.A.G.I. 29 September 2009

Until 1853 he worked at whatever he could get to do, and in that year married Miss Martha J. Callaway, a native of Virginia, who bore him six children, three now living: Henry C., John T., and William A. Both Mr. Boring and wife are members of the Methodist Episcopal Church South. In 1864 Mr. Boring enlisted in Company H of the Fortieth Missouri Infantry, United States army, and served until August of the following year. He was in the battles of Nashville and Spanish Fort. While marching through Nashville he fell headlong into a pit and injured himself for life. He was discharged at St. Louis and is now drawing a pension. For a number of years after marriage Mr. Boring hauled iron at Pilot Knob, but for the last twenty years he has been engaged in farming, and has 121 acres. He is a Republican in politics, and a member of the G. A. R. He may be called a self-made man in every sense of the word, as he made his all by hard work and economy.*

## A Grave Errors

As usual, those who post information on Findagrave fail to do serious research on their postings. They either take the information from an unreliable death certificate or from an equally unreliable headstone. The only reason I bother to list the FAG postings in my C2G profiles is to validate the burial location of the deceased. All other information unless researched by a qualified family history researcher...supported with documentation and source references is questionable and should not be taken as accurate. The above FAG posting is one of those with errors and should not be considered factual. I informed Rick his error with the wrong parents for Robert A. Boring and have yet to hear from him. ## Cradle to Grave (C2G) Profile for Martha Jane (CALLAWAY) by Floyd Thomas Pratt F.H.C., M.A.G.I. 2013

In harmony with the first law of genealogy or family history research, i.e., documentation, I submit my famous Cradle to Grave (C2G) Profile on this subject including all known documentation presented for the serious researcher. *Robert A. Boring, farmer, is the son of Leroy C. and Mary (Hulsey) Boring, natives of Tennessee and Georgia, respectively. When young they came to Missouri, were married in Franklin County, and here the father followed agricultural pursuits for some time. He held the position of justice of the peace, and died in the full strength of manhood. The mother afterward married John Peters. She still lives and is seventy-eight years of age. Three children were born to her first marriage, and three to her second. Robert A. was the eldest of the children born to the first marriage, his birth occurring in 1830. His early education was wholly neglected, but upon reaching manhood he acquired a practical education by his own efforts. His early life was one of hardship, and when fifteen years old he began working for himself at 25 cents a day. Until 1853 he worked at whatever he could get to do, and in that*

Even though the 1920 census taker wrote that Maggie and Irene were Boring surnames they were actually Silvey surnames. Maggie had married Charles Silvey in 1913 so, Irene B. was actually Irene B. (**SILVEY**) as supported by the 1930 census with her family. However, it appears there was marital trouble in the Silvey family because Maggie is living with her parents and Charles is living with his parents in the 1920 census.

Robert A. Boring, farmer, is the son of Leroy C. and Mary (Hulsey) Boring, natives of Tennessee and Georgia, respectively. When young they came to Missouri, were married in Franklin County, and here the father followed agricultural pursuits for some time. He held the position of justice of the peace, and died in the full strength of manhood. The mother afterward married John Peters. She still lives and is seventy-eight years of age. Three children were born to her first marriage, and three to her second. Robert A. was the eldest of the children born to the first marriage, his birth occurring in 1830. His early education was wholly neglected, but upon reaching manhood he acquired a practical education by his own efforts. His early life was one of hardship, and when fifteen years old he began working for himself at 25

cents a day. Until 1853 he worked at whatever he could get to do, and in that year married Miss Martha J. Callaway, a native of Virginia, who bore him six children, three now living: Henry C., John T., and William A. Both Mr. Boring and wife are members of the Methodist Episcopal Church South. In 1864 Mr. Boring enlisted in Company H of the Fortieth Missouri Infantry, United States army, and served until August of the following year. He was in the battles of Nashville and Spanish Fort. While marching through Nashville he fell headlong into a pit and injured himself for life. He was discharged at St. Louis and is now drawing a pension. For a number of years after marriage Mr. Boring hauled iron at Pilot Knob, but for the last twenty years he has been engaged in farming, and has 121 acres. He is a Republican in politics, and a member of the G. A. R. He may be called a self-made man in every sense of the word, as he made his all by hard work and economy.

A lifelong resident of Seymour, Marvin attended Davis School until the 8th grade. He served in the United States Army from 1953-1955, including a tour of duty in South Korea. A dairy farmer all his life, Marvin enjoyed working the land. He took pride in sharing his passion for farming, helping numerous young men get their start. Marvin almost never missed an opportunity to ride in the Apple Festival Parade, with his last ride in the 2012 parade. Marvin loved horses; he had a very successful horse show career passing on this love to his daughter. Leaving behind wonderful memories of the time they spent together. He enjoyed hunting of all kinds, especially fox and coon, and often shared stories of quail hunting in the early part of his life. Marvin appreciated the simple things of life, and found happiness sharing his love for Gods creation with his family and friends. He made his profession of faith on November 7, 1965 at the First Baptist Church with Reverend Roy Cantrell. He lived out his faith as a devoted husband, good father and a caring neighbor and friend. He always was there to lend a helping hand, giving advice and equipment to others seeking nothing in return. ## A Little Something About Your Author.....

*Floyd Thomas Pratt, F.H.C., M.A.G.I.*

At the age of 19, Tom Pratt embarked on a career in law enforcement. This experience gave him training in detective and investigative skills. Little did Mr. Pratt know, how useful these skills would be in the field of genealogy.

Tom Pratt started his family research career in 1975 after becoming a member of the Church of Jesus Christ of Latter Day Saints. His first calling as a new member was to serve in the newly created genealogical department or known today as the Family History Center in the Springfield, Missouri ward. This two-year calling gave Mr. Pratt a tremendous amount of experience helping others to research their families.

In fact, he felt family research came easy and required little effort on his part. In reality, years of reading and studying increased his expertise and he made it look easy to others.

Over the course of several years, Mr. Pratt was asked by his church to instruct several family history courses. This experience established a deep profound love for family and ancestors.

It was not uncommon for Mr. Pratt to spend 4 to 8 hours a day researching and compiling family histories in addition to his duties, as an entrepreneur in the insurance business.

The first major achievement for Mr. Pratt was a breakthrough on his Pratt family back to the early 1800's. Not satisfied with just the direct line research, Mr. Pratt branched out to research all connected lines and allied families.

This dedication led to 42,000 individuals and achieved expert status for Mr. Pratt on the families of middle and eastern Missouri, eastern and western Tennessee and central North Carolina.

Concerning Mr. Pratt's style of research, he is a strong supporter of the "hands on" approach. When he took family vacations, they usually went to libraries, cemeteries, courthouses, National Archive centers, and visited family members in various states. He attended multi-state family reunions and obtained his material from the actual sources when possible.

# A Little Something About Your Author.....

Being a researcher of the highest degree, in 1991, Mr. Pratt formed the Pratt Publications Company and offered to the public, a series of books titled, The Pratt Progenitor Papers. This series of volumes are a collection of legal documents, stories, pictures and historical presentations concerning the families of Missouri, Tennessee and North Carolina.

The first three Volumes were released to the public in 1991 and were issued to 18 different libraries including the Library of Congress and the St. Louis Public Library. The next 7 volumes were published with at total of 43 volumes scheduled for publication.

In 1996, Mr. Pratt formed the Genealogical Institute to further the education of serious researchers.

The Genealogical Institute offers a series of educational materials to teach and instruct the uninitiated in the procedures of family history research. These courses offer "a hands on" curriculum designed to instruct in investigative, deductive reasoning and logical procedures for tracking your family history.

Beginners and experienced researchers have found a treasure chest of knowledge when undertaking these courses. Mr. Pratt has taken the hobby of genealogy and has enhanced it into a science. Heavy on instructions concerning documentation, research procedures, alternative sources and common public records, this course is a valuable tool for the researcher. One of Mr. Pratt's favorite sections of the course is teaching researchers "how to stop" researching and compile their information for publication.

Upon completion of the educational courses from the Genealogical Institute, the graduate is awarded the **Master Accreditation of the Genealogical Institute. (M.A.G.I.)**

This designation is equivalent to a Doctorate Degree and signifies the recipient has been trained and demonstrated superior research techniques.

Mr. Pratt's ability in family history research has amazed many educated researchers. When Mr. Pratt is asked for help concerning their "brick wall" in their family research, his quick wit and logical mind rapid fires instructions and procedures so fast they cannot write the material quickly enough. Little do they realize this knowledge has been acquired over 30 years of experience and research.

In June of 2000, Mr. Pratt undertook a new and unprecedented task.

Outside of Washington, Franklin County, Missouri is an old cemetery called the Johnson-Caldwell Cemetery. This cemetery has many pioneer heroes and ancestors of various descendants from that region. Some of the inhabitants were born in the 1750's and traveled west to Missouri after the 1803 Louisiana Purchase.

# A Little Something About Your Author.....

Mr. Pratt took down all the information off the headstones, including every person in the cemetery and researched each individual related or not. 1000 man-hours and two years later, he published the book "Johnson-Caldwell Cemetery of Franklin County, Missouri"© 2001.

Obtaining newspapers, legal documents, personal interviews with ancestors and researching various sources for any and all information concerning the history of the cemetery and the inhabitants produced this master text. What makes this book stand out among the rest is basic content and structure.

First, it is the only book to cover the known and reported inhabitants of an entire cemetery.

Second, this book reports on each inhabitant, their birth and activities throughout their life until their death, including their ancestors, spouses and children.

Third, even the index is unique, listing the individual and their father's name if known. This is extremely helpful when several individuals have the same given name.

Upon examination, professional researchers have hailed this body of work as a masterpiece and a standard in which all future research of cemeteries should be based. In their opinion, no one has ever produced a body of work about a cemetery as unique and professional as this publication.

Currently, Mr. Pratt is working on a series of books from the [Pratt Archive Collections](#), which is a series of biographical publications concerning a progenitor and a generation of descendants. This collection is a "cradle to grave" report, which covers the subject's ancestry, birth, marriage, children, and geographical domiciles as well as the political environment during the subject's lifetime.

In addition, Mr. Pratt is working on additional volumes of the Pratt Progenitor Papers and several books on public records.

With all these accomplishments, Mr. Pratt humbly refers to himself as a Genealogical Anthropologist...resurrecting progenitors.

We in the genealogical world are deeply grateful to be associates of a man of Mr. Pratt's caliber. Through his dedication to helping the novice as well as the professional researcher, future generations will benefit by his advances in the genealogical field.

In addition, we are thankful for the inspiration that sparks men like Mr. Pratt to magnify their love for people and history. We feel, with a lifetime dedicated to the genealogical pursuit of truth and knowledge, Mr. Pratt's accumulative body of work, will stand as a quintessential manifestation of this divine love.

# GENEALOGY ETIQUETTE

1. Do not give copies or reproduce the information you received from the compiler or author without written permission.
2. In your research efforts if you are able to advance the research, then reciprocate by sharing your research information with the compiler.
3. Use the information you receive as a starting point for your research of your families.
4. If you decide to use information you have received, in a book, document or research material, be sure to acknowledge the author or compiler of that material.
5. All inquiries by third parties for a copy of the material should be forwarded to the original compiler or author.
6. Do not loan or share your information, family heirlooms, special documents, one of a kind, pictures, or irreplaceable materials to non-professional researchers or family members. These types of materials seen to disappear or become damaged.
7. Make copies of important documents or materials when at libraries and be sure to write the name of the book, source, letter or film with the author's name and page number and year of publication.
8. Genealogy work that is not documented is of little value. Remember, you are leaving a trail for those who follow. If future researchers have to verify your work, then of what value is your work?
9. Collect family stories from those relatives who are still alive. This is a short cut to your past and they hold a world of knowledge about your family.
10. Do not try to finance all your research alone. Ask for financial assistance from interested family members.

Remember, the family history information that is so easily exchanged today by computer was acquired over years and years of on-site research. While many were engaged in raising families, working for income, and surviving, genealogist researchers did these things **AND** spent their free time in pursuit of the truth about their ancestors. This pursuit required great sacrifice of time, effort and money. Many researchers went to the actual locations to view the marriage, deed, death and birth records including visiting the cemeteries across the United States and foreign countries. This is why it is important to follow the above guidelines; by doing so, you give respect to their work and honor to their memory. Thank You.
